FREAR MAY WAIT ANOTHER MONTH

WHY YACHT RACE SHOULD BE IN JUNE

W. H. Stroud, one of the enthusiasts of the group that exploits the yacht Hawaii, has prepared the following argument to show why the trans-Pacific yacht race should be sailed not later than June 15. Mr. Stroud says:

"In taking up this subject my aim will be to show that the northeast trade wind, in which four-fifths of this race is sailed, is more favorable to a quick passage in early June than in July."

Cause of Winds.

"In the first place, we know that winds are caused by differences of atmospheric pressure, which are themselves caused by differences of temperature. The atmosphere, like other gases, is very elastic and highly compressible, expanding when heated and contracting when cooled. From our observations of experiments with hot air balloons, we know that heated air rises, or, rather, is forced up by the lateral pressure of the surrounding cooler and heavier air which rushes in to replace it. This principle is exactly the cause of winds. The atmosphere of the earth within the tropics on both sides of the equator, being more under the direct rays of the sun, becomes heated, expands, and is forced by the cooler adjacent air which rush in to replace it, from the north in the northern hemisphere, and from the south in the southern hemisphere, thereby causing the trade winds; and the equatorial region where they meet serves as a sort of cushion where they are neutralized, this region being called the doldrums, where there is little or no wind. These winds, flowing from the high pressure belts in the latitudes of the 30's toward the equator in both hemispheres, are deflected from their natural courses by reason of the earth's rapid rotation from west to east, resulting in the northeast and southeast trades.

"As the limits of our trade wind extend from about 8 degrees north to about 33 degrees north, we naturally find its highest development midway between the two, just as we find the swiftest part of a river current in mid-stream.

"Having arrived at the conclusion that the sun's heat is the cause of our trade wind, let us see how it is affected by the sun's change in declination.

"The following table is an extract from the American Nautical Almanac for 1910, Greenwich noon, showing the sun's declination on the 21st of each month, and also its change in declination in the twenty-four hours following, or from noon of the 21st to noon of the 22d.

Noon, March 21—Declination: 09 deg. 00 min. 04 sec., 4N; change in 24 hours: 23 min. 41 sec., equals 23.7 nautical miles toward north.

Noon, April 21—Declination: 11 deg. 39 min. 08 sec., 4N; change in 24 hours: 20 min. 23 sec. North.

Noon, May 21—Declination: 20 deg. 03 min. 45 sec., 0N; change in 24 hours: 12 min. 13 sec. N.

Noon, June 21—Declination: 23 deg. 26 min. 59 sec., 2N; change in 24 hours: 08 sec. N. Reaches Tropic of Cancer.

Noon, July 21—Declination: 20 deg. 36 min. 25 sec., 8N; change in 24 hours: 11 min. 32 sec. S. (Toward the south.)

Noon, August 21—Declination: 12 deg. 20 min. 07 sec., 3N; change in 24 hours: 19 min. 53 sec. S.

Noon, September 21—Declination: 00 deg. 57 min. 04 sec., 3 N; change in 24 hours: 23 min. 20 sec. S.

"Observe that when the sun reaches the vernal equinox in March its declination is zero.

KUHIO'S CHARGES HAVE NOT CHANGED STATUS

(Associated Press Cables to the Star.)

WASHINGTON, January 8.—The gubernatorial situation is unchanged by Kuhio's charges except a possible delay of a month in reappointment.

BRECKONS.

SALOON KEEPER TESTIFIES AGAINST TWO MEN CHARGED WITH BEGGING

In the police court this morning, Jonah Cummings, a chauffeur, charged with furious driving, waived examination and demanded a jury trial. He will get it.

M. Lopez, similarly charged, was fined \$15 and costs. He damaged the automobile of Blanche Martin at the Waikiki Inn. Lopez was brought out of jail, where he is serving a sentence for embezzlement, to face the present charge. He will work out the fine at the expiration of the prison sentence.

Jean Gomard, charged with assault and battery, was discharged.

Fred Miller, charged with gross cheat, in that he did secure a loan of \$10 from Dick Sullivan on a forged pay check, was sent to jail for five months.

M. Munley and L. Erickson were charged with begging. The former was sentenced to fifteen days and the latter to ten days on the reef. Those who testified against the poor beggars were Saloonkeeper Jimmy Thompson, Billy Bergin and Jack Scully. Defendants arrived here as stowaways last Wednesday and spent what little money they had in liquor. They were good fellows while they "had it."

Agrasia Bohol, charged with aggravated assault on a Chinese youth, was sent to jail for twenty days.

Manuel Vasconcellos, charged with assault and battery on a Japanese, drew a fine of \$5, costs being remitted.

Ten gambling Japs were fined \$5 and costs each, and seventeen others, defended by W. T. Rawlins, were discharged. The prosecution failed to make out a case against the alleged gamblers, one of whom was Amimoto, pardoned from jail on Christmas Day. The defense was that defendants were gathered together, not for the purpose of gambling, but to participate at a feast given in honor of the ex-convict.

This morning's arrests included Ng Yin, assault and battery, and Lum Wa, riding a bicycle on the sidewalk.

Governor Frear this morning signed the death warrant of Nakamura Eis-rijo, a Japanese who was convicted last November of the murder of Kasougi, also a Japanese. The execution will take place on the 16th of this month.

MOSQUITO INSPECTOR SENT TO JAIL

In the police court this morning, H. Nemover was fined \$3 and costs for having been drunk.

Defendant stated that he had been in the islands thirty years and that this was his first appearance in court.

Kim Yon Tel and K. Shima, drunks, were fined \$3 and costs.

Pat Brady faced Judge Monsarrat on the same old charge.

In the past Brady has asked for judicial clemency on the ground that he might lose his job if he was sent to jail. This eleemosynary job was introduced into the proceedings this morning.

"Got a job?" asked Prosecuting Officer Brown.

"Yes," replied the boozy one, "mosquito inspector."

"Brady is unfortunate in hitting the booze at inopportune times," soliloquized Brown.

"It is his eleventh appearance on the same charge," mused the court.

"I can't take a false step but what I get pulled in," remarked Brady. "They seem to be after me all the time."

"That's because you get drunk all the time," exclaimed Brown.

"I wasn't drunk," retorted Brady. "I was leaving a friend's house where I had been dining in order to go to my own house when I was arrested."

The arresting officer stated that when Brady was gathered in on Saturday afternoon he was lying dead drunk on the sidewalk in front of the store of C. Q. Yee Hop on King street.

"What have you got to say to that?" queried Brown.

"It must be so if the officer says so," remarked Brady, satirically. "Personally I don't know anything about it I can assure you."

Defendant was sentenced to five days' imprisonment, costs being remitted.

KILAUEA PARK IS FAVORED

Governor Frear received word this morning from the secretary of the American Civic Association telling of a convention recently held in Washington, the object of which was to form a Bureau of National Parks. President Taft and the Secretary of the Interior expressed themselves as being very much in favor of such a creation.

The secretary of the Civic Association also told of his interest in the proposition to establish a national park at Kilauea, and thinks that the formation of a bureau will materially help this project.

FEDERAL GRAND JURY.

The federal grand jury met this morning, for the first time since before the holidays, to consider such matters as might be placed before it by United States District Attorney Breckons. It is known that there are several opium matters to come before the federal inquisitors, and several indictments for smuggling the drug will probably be returned.

TO CALL JURY ON BISHOP AND UNION

Attorney General Lindsay filed the proceedings relative to the closing of Judd, which bears on the matter of Bishop and Union streets, and was to have been held this morning, was postponed until the 15th of this month.

Second Deputy Attorney General A. G. Smith will leave tomorrow morning for Kona, Hawaii, on a business trip. He will return to Honolulu Saturday next.

PROBATE MATTERS

The time of Judge Whitney of the circuit court was taken up this morning with the examination of accounts of guardians, executors and administrators of estates. All those submitted were approved, as follows:

The first annual account of James

Breckons Has Orders

U. S. District Attorney R. W. Breckons received cable instructions this morning to the effect that the letter by which the Mahuka site extension condemnation proceedings were suspended has been revoked, and that he is directed now to proceed with the case in the Federal court here.

THE QUARANTINE SLOWLY EMPTIES

There are now left in the federal immigration quarantine about seven hundred immigrants.

About five hundred Portuguese will be released on Wednesday, if nothing occurs in the meantime to prevent it, and on Thursday another sixty or seventy will be turned over to the territorial authorities.

This will leave about a hundred and fifty on hand. Some of these are contacts, some are suffering from disease, and many of them are convalescing. They will be released as soon as possible.

MORE NOLLES IN GRAVE CASES

Immediately following the report of the grand jury last Saturday exonerating the city and county attorney, in which special reference was made to the habit of entering nolle proseques, the prosecuting department of the city and county secured, before Judge Whitney, two nolle proseques in extremely serious cases.

A nolle prosequi was entered in the case of Isaac Aho, charged with having criminally assaulted a female child under the age of fourteen years. The case of Hookaku, charged with rape, was also nolle prosequi, while that of James Evans was continued for the term.

The above mentioned matters were the unsavory Art Theater cases which made so much of a sensation some months ago.

WHAT'S DOING AT CITY HALL

Registration of voters approached 2100 this morning. A number of the new grand jury took the opportunity of being in the building to have the duty performed.

There will be a meeting of the board of supervisors tomorrow evening, when third reading of the appropriation bill will be in order, also the deferred first reading of amendments to the building ordinance. The Nuuanu avenue job will likely come up again, through a report of the ways and means committee on a resolution to vote \$2500 additional for the work—that is, if the chairman of the ways and means committee decides it is worth while to bring in anything without the advice and consent of "the big four."

B. G. Rivenburgh, the mayor's secretary, was in Washington, D. C., when last heard from. He is expected home on February 2.

County Engineer Gere is out surveying on the belt road today.

A. Thompson, guardian of Amy Helene Thompson, was approved, as were the final accounts of Trent Trust Company, Ltd., administrator of the estate of Tang Karm Cheong; Trent Trust Co., Ltd., administrator of the estate of Alice Johnstone; Chester G. Livingston, administrator of the estate of Clifford E. Livingston; and the final accounts of Barbara Telles, executrix of the estate of Antonio T. Telles.

William A. Holt was appointed guardian of the person and property of Mulwai, a minor.

TAKE SHEN CHOW AND ON TO HONAN

(Associated Press Cables to the Star.)

PEKING, January 8.—Ten thousand revolutionists from Shen Shi and Shen Sha have taken Shen Chow and are advancing on Honan.

National Democrats in Session

WASHINGTON, January 8.—The Democratic national committee has failed to choose a location city for the convention. Baltimore is leading, with St. Louis, Denver, Chicago running.

Bryan threatens to appeal to the people in his attempt to unseat Guffey as chairman.

Another McNamara Arrested

NEW YORK, January 8.—John McNamara has been arrested on a charge of dynamiting the Bank of Montreal at Westminster on September 14.

In San Francisco McNamara went under the aliases of McNab and Australian Mac. He has served a term for robbery in Australia.

Bad Weather Abating

KANSAS CITY, January 8.—The weather has abated in severity, the temperature having risen twenty degrees.

CHICAGO, January 8.—The weather conditions here are slightly better and there is promise of warmer weather.

Stenographers Hold up Congress

WASHINGTON, January 8.—The stenographers of the ways and means committee are on a strike against a reduction of wages. It embarrasses national legislation and is the first instance of the kind in its history.

A Bad Blizzard

PORTLAND, Ore., January 8.—The blizzard is one of the worst in the history of the state. Wires are down and trains blocked by the snow. Damage by ice and snow amounts to \$300,000.

Our Destroyers Ashore

HAMILTON, Bermuda, January 8.—The U. S. destroyer Paulding is ashore at St. George's. The Drayton and McCraw are not accounted for. Two men are known to have been drowned.

Violated Neutrality

BROWNSVILLE, Tex., January 8.—Thirteen have pleaded guilty to violating the neutrality laws in aiding General Reyes' revolution.

Thirty-three Killed

MONTREAL, January 8.—Thirty-three were killed in the collision on the Canadian Pacific Railway at Terrebonne.

Bad for Traffic

DULUTH, January 8.—The last seven days' weather has been the worst for railroad traffic on record.

Brand New Statesmen

WASHINGTON, January 8.—New Mexico's representatives were seated today amidst applause.

(Morning Cable Report on Page Twelve.)

DIRECTOR WALL EXPLAINS RADICAL PARADE CHANGE

Director Wall of the Floral Parade this morning stated to a Star reporter that the Floral Parade would be started from the Capitol grounds at about two o'clock or half-past on Washington's birthday.

The idea of starting after lunch appealed rather strongly to him. He thought that it would be a much better plan to have everything carried out in the afternoon. Last year, for instance, people were not able to enjoy themselves thoroughly because they had to stay in the hot sun at Alexander Field without their lunches.

With the start at two or half-past this would be obviated. People would be able to pay more attention to the decoration of their cars, and they would not have to get up before daylight to do it. The whole thing would be gone on with in the afternoon, judging and everything. There would be no need to stop at all.

Mr. Wall would like to remind those concerned that a rehearsal of Pinnaford will take place at the Kilauea Art League rooms tomorrow evening. A start will be made at half-past seven, and Mr. Wall wants everyone to be present.

PACIFIC FLEET STILL MARKING TIME AND BURNING COAL HERE

There was a dearth of news around the fleet this morning. No official information has been received yet with regard to the sailing date.

Unofficially it is stated that the fleet will remain here until a treaty has been signed between the republicans and the Manchu followers, or until it is absolutely certain that the fighting is all finished. This, of course, can get no official endorsement.

The Glacier is still here. When she will leave again no one can say either. What is keeping her here has not yet been announced. She has given practically all her stores to the fleet.

The fleet will start in to coal again tomorrow. The amount of coal consumed by these vessels daily is astonishing, even though they are lying at anchor or at the wharf. The five cruisers use about one hundred tons a day, the average being about twenty tons for each vessel.

This morning Admiral Thomas inspected the Maryland of the first division. The other ships of the first division—the California and the South Dakota—and the West Virginia, the flagship of the second division, will be inspected in due course. This takes place at an unexpected hour on an unknown day.

This morning the body of Ordinary Seaman Greer was laid to rest in Nuuanu cemetery. He was carried from a naval funeral. Greer was on the West Virginia, and died yesterday from anemia.

NEOLOGICAL BLAST FROM KANSAS HITS THE HAWAIIAN CAPITOL

W. H. Kerr of Great Bend, Kansas, has, through some unknown agent, thought to start the week well by educating the officials at the capitol by means of distributing a publication called "The Truth About God and Life," the introductory paragraph of which is here reprinted:

"INTRODUCTORY — A Cheerful Greeting and Best Wishes for a Long, Happy, Healthy and Wealthy Life to All. This Little Educator is Distributed by the Church of Humanity to Introduce to All People Kerr's Great Discoveries in Nature That the Universe Contains No Real God, That Man Contains No Soul, and That Life is Ended Forever in Each Person at Death—That All Gods, Saviors, Souls, Saints, Devils, Spirits, Angels, Heaven, Hell, Purgatory, Etc., Are Purely Mythical, Having No Real Existence whatever in Nature. This Church has Over 300 Enrolled Members in the United States and is Daily Organized and Incorporated to Teach These Discoveries. Ernst Heckel, the Great German Biologist, is a Member of This Church. All Are Invited to Subscribe for This Little Educator That It May Come to Their Homes Monthly to Teach Them These Wonderful Modern Discoveries, and as Soon as They Learn Them They Are Requested to Join the C. O. H. No Fees or Dues to Pay."

The trouble is, however, that the different officials are so busy they are unable to profit by this pamphlet, and thus is another humanitarian effort wasted.
